Dear Sirs and Mesdames,

I am writing to urge you to do what is necessary to save Idaho's salmon and steelhead- bypass the four lower Snake River dams. After researching all the alternatives, I'm convinced that breaching the dams is the most scientifically and economically feasible approach. I won't waste your time with reciting all the facts that support that conclusion; I'm sure you're conversant with them. I am just one of thousands of ordinary, tax-paying citizens of Idaho that cares deeply about the decision you are charged with making. Be assured that we'll be watching attentively as this issue is resolved.

Thank you for your time.

Yours,

Pamela Myhre
